## **Understanding Cancer Together presentation: Education, Prevention and Treatment**

Dear Parent/Carer

Many people are afraid of cancer and don't know all the facts. To support our students and as part of our PSHEE program at Park School we have invited the Teenage Cancer Trust to speak to our Year 10 students on Wednesday 7th November about cancer and health.

### **Who will be delivering the presentation?**

The presentation will be given by a trained professional speaker from Teenage Cancer Trust and is delivered in a sensitive way. If you have any concerns, please do speak to your Head of House or Mrs Duthuit and we will ensure that your child is supported.

### **What is the Teenage Cancer Trust?**

Teenage Cancer Trust is a national charity dedicated to helping young people understand and fight cancer. Teenage Cancer Trust's national 'Understanding Cancer Together' presentation is recognised by the Government as it raises awareness of cancer which can lead to earlier diagnosis.

### **What information will the presentation include?**

The presentation will last for around 50 minutes and is an interactive opportunity for students to learn about and discuss:

- what cancer is
- common signs and symptoms
- the impact of cancer on a young person
- types of treatment
- healthy living
- breaking down fears about cancer

By the end of the presentation, all students should know more about early warning signs and how they can reduce their risk of cancer later in life. Throughout the presentation, students will be encouraged to become the experts of their own body and to speak to health professionals about any concerns.

Improved awareness can help to stop cancer before it starts and break down fears about cancer. For more details, please look for the Transforming Cancer Knowledge report on the Teenage Cancer Trust website.

### **Why is this important?**

Teenage Cancer Trust wants your child to have this opportunity to learn about cancer and feel more able to talk openly about their health because it's been proven to make a difference. Please do support this by talking to your child about what they have learned and encouraging them to be open about any health concerns they may have. Leaflets will be handed out at the end of the presentation that cover the main

points and the information can also be found under Information for Parents on the Teenage Cancer Trust website.

Best regards

Anne Duthuit  
**PSHEE coordinator**
