

Safeguarding

What to do if.....

You are being bullied in school

Write down your worries or ask a friend to do that for you

Contact your tutor, your Head of House, a Head Prefect or an adult in school straight away.

Do not worry about being the one to tell! It may help others!

What to do if.....

You are worried about your health

The School Health Professional would be happy to see you – ask in the Safeguarding Hub for the times of drop-in sessions. It is confidential!

What to do if.....

You are worried about social media messages and images you have received

Do not delete them! Let your parents/carers see them. If you prefer, speak to your tutor or Head of House or talk with Mrs Freeman or one of our Pastoral Mentors on the ground floor of the art block.

School staff will always talk to your parents/carers – parents and carers will decide what action they would like to take.

We will involve the police as a safeguarding issue if the messages or images are threatening, abusive or sexually exploiting. We will NOT view images but pass them on.

What to do if.....

You are concerned that you feel unsafe or a friend is unsafe at school or out of school

Tell someone! It may be your parent/carer, it may be a teacher or a teaching assistant or another trusted adult. You will NOT betray a friend's trust.

WHATEVER YOU DO DON'T STAY SILENT! BE OPEN AND HONEST HELP IS THERE.
